## **MFR004: ERSTLAUB – BROADCASTING ON GHOST FREQUENCIES**

Moving Furniture Records is more than happy to announce the release of Broadcasting on Ghost Frequencies by Erstlaub.

After several releases on the London based label Highpoint Lowlife we get the opportunity to present his next work that explores more of the dark moody drones world this Scottish musician lives in.

Broadcasting on Ghost Frequencies is an album you really don't want to miss out on; inspired by the Ganzfeld Procedure where the participant is deprived of visual stimulus and bombarded with white/pink noise drawing the mind to form patterns in the chaos often hearing voices from the past or inventing entirely new constructs within their consciousness, this release pays tribute to the parapsychological mind and its many wonders.

The album is limited to 100 copies

### **ABOUT ERSTLAUB**

Erstlaub is the creation of Dave Fyans of Perth, Scotland. Dealing in brooding drones and dense atmospheric soundscapes. He draws his inspiration from both man-made and natural sounds from real life and deconstructs and rebuilds them in his own stark vision by means of modular synthesis.

He has had previous releases on the labels Highpoint Lowlife, Diesel Combustible and Conv.
